

Commitment on the impartiality
PRISM Carbon Solutions Validation and Verification Body

The Validation and Verification Body (hereinafter VVB) guarantees that:

- The VVB is operated on basis of “PRISM Carbon Solutions FZ-LLC”, an organization that is legally and financially independent from the organizations or persons applying for validation or verification, as well as other organizations involved in the compliance assessment process or being interested in its result. Other VVB associated with “PRISM Carbon Solutions FZ-LLC” have no influence on the objectivity and impartiality of the decisions.
- VVB does not delegate the decision on the results of validation and verification to third parties or third-party organizations. The decision on the results of validation and verification shall be made exclusively by the head of VVB based on the results of the performed verification.
- All VVB applicants have equal rights and equal conditions for validation and verification. The provision of validation and verification services does not depend on the location, political views, financial status, fame, national or religious orientation of the applicant.
- VVB does not impose improper financial or other terms and conditions.
- VVB is not involved in developing GHG statements being validated and verified, as well as not taking part in climate project development.
- VVB does not consult with the applicant for validation and verification services.

VVB management ensures that its employees are protected from unlawful external or internal pressure to make decisions on validation and verification results.

VVB and "PRISM Carbon Solutions FZ-LLC" employees agree not to participate in any activity that diminishes confidence in VVB's competence.
